Art & Design Professional Development Day – Painting Focus

Carousel Education offer one day in-school staff training INSET days. For the painting focus, this is primarily a creative activity day focusing on a range of painting techniques using different media. In addition to the practical activities, the trainer will provide a brief overview of what a high-quality Art & Design curriculum looks like and how schools can prepare their curriculum for inspection. **Schools design their bespoke INSET day by choosing 4 of the modules below:**

Elementary Elmer

Exploring and understanding the use of ready-mix paint in primary schools. This session included colour theory, colour mixing and painting techniques – all delivered through the theme of Elmer the Elephant!

Painting with Pastels

A quick jaunt through some of the painting skills techniques of using both chalk and oil pastels through the work of the artist Vincent Van Gogh.

Watercolours

An opportunity to explore using watercolour paints in the primary years. Key techniques such as colour wash, wet on wet, and wet on dry are covered as staff create a landscape painting.

Genre: Still Life

A deep dive into the genre of still life. Staff will learn about the genre and some of the key techniques, artists, and iconic works as they create their own painted still life composition.

Blooming Lovely

In this session staff develop their colour mixing techniques using acrylic paints. They learn about texture and value as two of the key elements of art. They apply this knowledge to 'finish the flower' painting.

Genre: Portraits

A deep dive into the genre of portraits. Staff will learn about the genre and some of the key techniques, artists, and iconic works as they create their own portrait painting of a colleague.

Genre: Abstract Art

A deep dive into the genre of abstract art. Staff will learn about the genre and some of the key techniques, artists, and iconic works as they create their own abstract art composition.

CAROUSEL EDUCATION

Tel: 07720 223671
