

BLOOMING LOVELY KNOWLEDGE ORGANISER

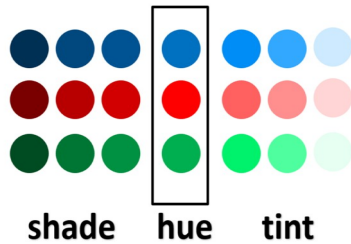

This painting of sunflowers is one of the most famous paintings in the world. Vincent Van Gogh painted a whole series of Sunflower compositions during his lifetime

PAINTING FLOWERS

Over the years, flowers have been irresistible to artists. There are many very famous paintings that feature flowers as their subject.

VALUE

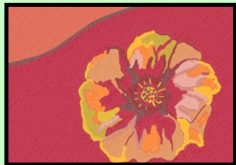

Adding white to a pure colour (hue) creates a tint.

Adding black to a pure colour (hue) creates a shade.

WORD KNOWLEDGE (VOCABULARY)

WORD	MEANING
Analogous Colours	Three colours that are next to each other on the colour wheel.
Colour	Colour is created by light reflecting off an object. All colours can be created from mixing the three primary colours.
Complementary Colours	Two colours which are directly opposite each other on the colour wheel.
Composition	Where the shapes or objects are put in a picture. Also used to describe a finished work of art.
Masterpiece	Very famous artwork that is considered some of the best art ever created.
Mixed Media	Using lots of different art materials (media) to create one piece of artwork.
Observational Drawing	Drawing what is in front of you as realistically and as true to life as possible.
Shade	Adding black to a colour to make it darker.
Sketch	A rough drawing that is used to plan artwork.
Still Life	Art that depicts inanimate objects - such as fruit, pottery and flowers.
Texture	The feel of an object. This can either be real (and be touched) or implied - through creating surface detail, for example on a drawing or painting.
Tint	Adding white to a colour to make it lighter.
Tone	The lightness or darkness of something.

Featured Artist: Georgia O'Keeffe (1887 -1986)

Georgia O'Keeffe was an American artist most well-known for her landscape paintings and her paintings of flowers. She was inspired by the beauty and colours of nature. She was a pioneer of modern art and one of the most important artists of the twentieth century as well as one of the first female artists to gain recognition for her work across the world.

SHAPE

Shapes are flat areas enclosed by lines. Shapes are two-dimensional. Shapes can either be geometrical or organic.

geometric
Found in architecture, buildings and manufactured items

organic
Found in nature - Leaves, seashells, flowers. Free flowing and irregular shapes

PATTERN

Pattern is a design that is created by repeating lines, shapes and colours.

TEXTURE

Texture is the surface quality of something. It is how something feels or looks.

Actual Texture
Actual texture really exists - you can touch it and feel it.

Visual Texture
Visual texture uses marks to represent real texture.

COLOUR

Colour has 3 different properties:

- Hue:** Pure Colour (the colours on the colour wheel)
- Value:** The lightness or darkness of a colour
- Intensity:** How bright or dull a colour is
